

015 The True Meaning of Unity  
Dr. Carlos Blair

And I say good evening to you one and all. Well it is indeed a pleasure for me to have this opportunity of manifesting once again in this manner. And I am Dr. Carlos Blair and as you have probably recognized I'm a little bit English but I hope that won't bother you too much at least.

You know David, I believe the old boy is never going to get these choppers fixed properly, you know. Every time I get the body they're a little bit different it seems. I don't... what? Well I didn't think that I had the problem previous, as it were. But none-the-less I believe that I can manage to keep them within the body as they should be, at least I'll endeavor to, and hopefully, I won't bring too much embarrassment to him in that manner.

I'd like to say welcome to all of you and it is indeed a pleasure for me to have this opportunity once again in this little church to speak forth with the truth that we know in spirit, where we see a little more clearly, through the process of being able to bring greater enlightenment to your world.

This evening I've chosen to speak on a subject that I feel is of great importance in your world at this time. And it seems as though when your world is in a time of turmoil and upheaval, and there's great indecision on every hand by not only the heads of all of your countries of the world, but also even with the individuals, as it were, within the confines of those little countries. It seems that man now, more than ever, needs to realize the importance and the fullness of unity with all. I wish this evening to speak about the importance as well as the true meaning of the word unity among man.

Many times what man has come to know and conceive in his own mind as unity is working merely side by side without having any great discrepancies, as it were, or if there's no words exchanged of harshness, and each is going in his own way without creating problems where the others concerned, they say, "well we're working in unity." That is not true. Harmony possibly, but not unity. Because for man to be in the totalness of unity with his fellow man, is to have total empathy, and with that empathy, not only feel what that person feels, but also add to the bond between each by recognizing the God part in both. It is when the God portion of one man recognizes and accepts the God portion in another that you have in truth unity with man. It is not only on the individual level that this is important. This is what is causing the great upheavals within your world at this time, is the lack of unity with man. If man could see clearly the greatness that unity would bring to your earth plane, not allowing barriers or borders or anything else; color, race, teachings, dogmas, creeds, customs, to get in the way. But to truly recognize every man as his brother and every woman as his sister, and not only recognize but come into full acceptance of that being at the level of their involvement at that time without judgment, then man would be operating in true unity.

If it were possible to unify all of mankind there would be no wars, there would be no strife, there would be none starving in your world. There would be none in great need in any manner because man would be aware that as I do unto him I am doing unto myself. And he would reach forth with great love, great compassion to lift his brother lest he dash his foot against the stone.

Now more than any time previous in this age that you're in, in your universe, is there a need to bring about the unity among all mankind, eliminating the jealousies, eliminating the mis-justices, the mis-treatments, literally eradicating the negative in your world. Many times you will find true unity in people. Sometimes it will come about, as it were, in a marriage. And when it does that's when everyone says, "well, there's a marriage that was made in heaven." And, in a sense that's true, because it's been brought about from the God portion from within the individuals, which brings about indeed heaven on earth.

Sometimes it does not involve marriage, at all. It can be indeed when two individuals are at the same vibratory level, or their spiritual growth has arrived at the same level of understanding, that they find themselves in complete unity with another.

However, this is not manifesting in your world except on a very small percentage scale, as it were. When we in spirit look upon your world, our greatest concern is the lack of unity or love that is truly being manifested among all men. When two individuals find themselves at odds, as it were, and I'm speaking now, not intellectually but rather vibratorily, that's when you're in someone's presence and you can't stand to be there, you know. You say, "I don't like that one's vibes," is when man is most apt to stand in judgment. And in reality that is the time in which man should put forth his greatest efforts to try to unify himself with that individual. Because, through that means, he is reaching out to lift his brother, rather than condemn him.

As I have said so many times previously, there are none manifesting in a physical body who are indeed perfect. Because if you were you wouldn't be in a physical body, you'd be with God. There wouldn't be anything left for you to accomplish. You would have your a-one-ness, and man needs to recognize his imperfections to not even stand in condemnation of self, but rather to look upon them as opportunities for learning and progression. And then be willing to accept the challenges that are placed before him, the challenges of needing to unify himself with all of mankind. I am not here to say that you will indeed always be successful. But I am here to say you can always indeed make the attempt towards succeeding, rather than stand in judgment.

It is a simple word that is so many times misunderstood and misused. And we know that in your earth plane at this time there is indeed a church that indeed has that very name. And the majority of peoples involved therein do not truly understand the real significance to be found within that name.

Try as best you can at all times, under all circumstances to unify the God portion of self with the God portion of all other individuals whom you come in contact with. If that was your only objective, if that was the only striving that you were to make while in a physical body, your spiritual progression would be much greater than your ability to comprehend.

God Bless you all, and I believe I should have created a lot of questions now about the subject of which I've spoken. So I'll ask you to limit questions to that subject. And I'll open it for questions at this time.

My goodness you mean we did it again David? Well, that's because the medium gets older, I don't, you know. But I get the practice, I'm teasing of course. Are there any questions at all?

Question: I'm not exactly sure, you mentioned harmony and unity in the session, here. I hear others speaking harmony with brother(?) rather than seeking unity.

Dr. Blair: Yes, they're two separate things.

Question: Could you just go into detail a little more, the difference between both of them please?

Dr. Blair: Yes. Harmony can be very easily attained as long as there's no disharmony. But that certainly doesn't mean you have indeed unified your a-one-ness with the God portion of yourself with that of your fellow man. It merely means that we're getting along all right. No one is at odds with the other. In other words, it's like the man and the woman who lives together as White Lily used to say to Robert, "when man and woman become one, they have bumps, both of them, that need to be rubbed off. And the longer they're together the more they rub the bumps off." Well you can live in harmony with one which means you're not fighting, you're not bickering, without living in unity, without truly becoming involved on a spiritual level of unifying the God portion of yourself with the God portion of the other individual. There are many in your world who have spent many years, as you know time to be, living with another, without arguing, without fighting, but also without unity. But they indeed have harmony. You understand what I'm saying?

Response: Yes, Dr. Blair.

Question: Along that same lines, how might we gain harmony within our existence and also have unity within mankind?

Dr. Blair: Well of course harmony is the first step. If there's disharmony, the first step towards unity is creating harmony through merely not being judgmental, through standing in a position of attempting to understand your brother, understand the level of progression that that individual is at. Why do they act as they do? But not to stand in judgment of, and strive towards being harmonious. Once you have become harmonious with another then the next step of course, is to truly unify that a-one-ness of the God portion of both individuals. Yes.

Question: Can you give us any additional information on the little boy that was lost here in Tucson, about his whereabouts?

Dr. Blair: Nothing more than the fact that he is in the California area, yes, I did give information last evening about it. Yes, he's in the lower part of California.

Question: Any chance of recovering him?

Dr. Blair: Well of course there's a chance. And I certainly would be the last one to say that man in a physical body should ever, as it were, discount the probabilities or the abilities of God. I do believe yes, that the young child will be recovered. But I don't see it as being immediately. But he is safe and that's very important. Yes, there might be other questions about the subject I've spoken on.

How's the time David?

Response: About twenty minutes before you need to leave.

Dr. Blair: Well that-you see he talks funny. I'm teasing him a little, I can pick on him. He's used to it. Besides that I can truly say he has broad shoulders.

Question: Doc, I've got a question. What's the matter with this thing, with the mixer? Why do I keep getting buzzes, and if I don't get buzzes I get radios?

Dr. Blair: Now if you had the internal portions of an individual there in your hands I might be of help to you. But let me check with Jimmy and see if he can give you some clarification. All right, he's saying that you need to...what? Isolate a short that's in a connector between the terminals and the housing of the connector. Do you understand what he's talking about? I hope.

Question: Is it in the overhead or can he tell me where it's at?

Dr. Blair: It's in the what? It's in the, no its not in the building, it's in the loose ones. Do you understand? Yes. And you didn't have them numbered so he can't tell you which one. You understand? You number in your mind, yes. Now I believe I might have other questions.

Question: Last night I was speaking to you about a gentleman and you gave me a first name on him, would you be good enough to look in his wallet and give me his middle initial and last name please?

Dr. Blair: I'm not permitted to do that you know. That's what you-well are you telling me to be a pickpocket? I'm teasing you a little bit. She's being very serious, you know. Well if I was a wife I could do that well. I'm teasing.

Response: I thought you were a medical doctor and had to look at that sort of thing.

Dr. Blair: The last of it is Burns. Yes. W

Question: Can you tell me anything I could do to improve my health?

Dr. Blair: Stop doing all the things you know you shouldn't and start doing all the things you know you should! I'm teasing a little bit. But one would be the discipline, as it were, of the exercise, as well as the dietary regimentation that you've started on. But be patient child, you get it that way after many years of bad habits but then you start good habits and all of a sudden what took five years to create you want to eliminate in 5 weeks you see. Have you heard the lecture I gave on patience? I'm teasing a little, not much. Yes.

Question: I've got a problem with my right arm and I was wondering if you could tell me what's wrong with it?

Dr. Blair: Well of course you realize they could put my medium in jail if I diagnose. But if I had the arm that you have, I would certainly have someone who's capable in terms of, professionally speaking, looking at it to eliminate the pinched nerve that's found about the third vertebra from the base of the neck. That's what I would do if it was my arm, understand?

Question: Could you tell me if my house is going to sell fairly soon?

Dr. Blair: I believe that's Floyd, is it not? God Bless you, yes, but you're going to have to go ahead anyway. It won't all get quite done but it'll be sold. Do you understand what I'm talking about? It'll be sold and you know it's sold and it's okay but you'll have to go on, you won't be able to wait. Do you understand? And boy have you got your work cut out for you.

Reponse: I'm sure.

Dr. Blair: Uh huh. He thinks he's going to retire, you know. Well he is, from a little bit of work to a whole lot. But he'll do it well. You know you have to be careful where you're going. They're what you call the bible thumpers. Ha. Yes. Boy, well, have no concern, you'll do it and

do it well but you have a new challenge awaiting you I'll assure you and you tell the young lady not to be concerned at all because she will more than surpass their expectations of her in the work she's accepting. You understand?

Response: Yes I do. Thank you very much Dr. Blair.

Dr. Blair: It's my pleasure indeed.

Question: Do you have anything to say about my job I'm now holding?

Dr. Blair: Well if you hold too tight your arms will get tired. I'm teasing you a little. Just a moment let me finish with him because I don't want to just tease him and then not tell him. You better look for another one.

Response: Thank you.

Dr. Blair: Yes, I was afraid of that. Yes now the young lady in the back. I believe that's Betty, is it not? Yes, God Bless you child, quit worrying about your daddy. He's not coming over here.

Question: Nora and I have quite a few extra people at our apartment now and we're wondering if my sister Toni's moving over there too?

Dr. Blair: Yes and it's not in your apartment, it's all of you are in your apartment and all of them are in her apartment, huh? The two of you just say well that's going to be our apartment and all the rest of you just move into that other one. You see?

Question: And Toni's moving over there too?

Dr. Blair: Yes she is. I don't know how you're going to have to have a great big shoe spoon to get them all in. Yes.

Question: Do you see us building a house here in Tucson when we retire?

Dr. Blair: No it won't be in Tucson, it'll be at the outskirts. But it'll be what you would call Tucson. Yes. I'm teasing you a little bit.

Question: I was just wondering if you could tell me if someone has led a life of...disharmony is the word and not being...

Dr. Blair: Not being kind and gentle?

Response: Right and let's say that person's body physiologically ceases to function or death or whatever. What happens to that soul or spirit in the after-life, is there a punishment of some sort?

Dr. Blair: Would you like the step by step process?

Response: No I know you're going to say have you heard my lecture on \_\_\_\_\_?

Dr. Blair: No not at all. But it would indeed take a considerable amount of time. But I think that I can pretty well thumbnail sketch it. Yes. First of all upon their entering into spirit, if they are at a lower level of awareness then they're going to be shut somewhat away from the light of God. And in time as they evolve somewhat they will indeed see clearly, all deeds, all acts, all thoughts exactly as they were done, not as they would like to have said they were done, and they will become fully aware of the wrongdoing. And believe me that is hell. And the judgment is not by God Almighty other than the god portion of self. But it is a fairness, and then of course from there they'll work toward the progression, yes.

Question: I am thinking about getting another dog and I was wondering if that was the right thing for me to do right now and if it would be safe to get another dog?

Dr. Blair: I believe child that under the circumstances, I would allow some time to pass and then reconsider. You understand? Don't do it too quickly. It's kind of like a, well, as it were, you've heard the, well, the analogy may not be quite exact, but you've heard of the man who's divorced and he remarries two days later on the rebound. Well it's kind of the way it is sometimes with the loss as such of your animal. So give yourself some time to get more settled emotionally. And then you can make a much more clear decision for yourself, because it is indeed child a great responsibility that one accepts when they take an animal as their own.

Question: I'm thinking about inviting someone to lunch tomorrow, it's their birthday and I'm wondering should I or shouldn't I?

Dr. Blair: That would be usurping your free will, but I think he'll say yes. But it's up to you whether you decide to ask or not, you see.

Question: Do you see any transition for a friend that I'm kind of taking care of right now?

Dr. Blair: No not immediately. It seems like she's going to be there for awhile yet. It seems a few more months, yes.

Question: Is it going to be this new thing that has just developed?

Dr. Blair: The problem that has just arisen, yes it will. But it'll be a few months yet, yes.

Question: Do you see about how long my niece will be staying at the house that I am living at right now?

Dr. Blair: Well you don't have to worry about it, you'll be moved before she is.

Question: Could you give me an insight onto if any of my children will be living with me in the near future and if so how many?

Dr. Blair: Yes, there'll be four and it'll be the older ones.

Question: Can you give me any timetable as to when it might be?

Dr. Blair: It looks as though somewhere into the summer. But it'll be before September your people say.

Question: Is that going to be permanent then?

Dr. Blair: Yes, certainly four is a nice number when you have nine. Yes. Nine beautiful children I might say.

Question: This is Nora and I was asking about Bob in Florida and what happened to my trip to Florida?

Dr. Blair: Well you don't have to go you know. No but you can, you're going to have the opportunity. But then it's free will of choice.

Question: Is Bobby coming here?

Dr. Blair: Yes.

Question: How bout Hawaii?

Sorry, I have David back here who hollered first awhile ago. See I get to be referee and all. Yes.

Question: Can you tell me anything about the condition of my father, as far as his health goes? What's going on there with that?

Dr. Blair: Well he's been doing pretty well, really, there's been some extra strain there placed upon the body and there's been some minor problems in the area of the heart David. But I don't see him making the transition.

Question: Is the doctor going to take care of the \_\_\_\_\_ then?

Dr. Blair: Yes, Yes. A little bit of...what...I believe you would say angina. Yes. Angina, now you be careful with that one David. Yes.

Question: I asked you the other Day about a job I was looking at and you thought that would work out....

Dr. Blair: I was all planned for you and then they, you see again you cannot usurp the free wills of other individuals, and there's been a change there. But there'll be another put in its place very soon.

Question: Can you give me an idea of a timetable?

Dr. Blair: Oh, yes, you're looking within the next couple weeks, yes. God Bless you.

David, one moment, how's...the Rock's getting nervous. We should never have taught that Indian to tell time. Yes, all right, I'll take another question over there.

Question: Dr. Blair, my father is in the spirit world and I'm having some problems. Do you have any information for me that would help me through?

Dr. Blair: Well you have several problems around you. One of course is the one that involves the legalities and of course also the emotional upheavals that are taking place. But again child don't try to carry the load by yourself, realize that you're not walking the path alone. That indeed you do have God Almighty as your partner and place a little more of it in God's hands. Do what you have the ability to do but then realize that you're not trying to carry the load by yourself. And it will resolve itself very soon you know.

Question: Will I be laid off from my job?

Dr. Blair: Well someday. No I'm teasing her a little bit. You see that's an open end question. And some day yes, but no not soon. You're not going to get to rest. No you're going to work. Yes.

Question: My friend's father, is he going to be making transition soon?

Dr. Blair: Yes he is, very soon.

Question: I got a job maybe. It's at a YMCA camp. I was wondering if I was gonna get it or not?

Dr. Blair: I don't think so, but there'll be another. Yes.

Question: My father is back in Rockford trying to sell his house to move out here.

Dr. Blair: But he won't get here, and he's lucky, he won't get here until October.

Response: October?

Dr. Blair: Yes, it won't be sold until October and he's lucky because you see, he comes here before that and...I know my medium, he says this is heaven but I'll tell you, if I were in the body I wouldn't think so. In about August, yes.

Question: I'm seeking employment in counseling and I just want to know if you would have any information about what direction to take, as far as...

Dr. Blair: Yes I would say go involve yourself, make yourself available, as it were, to the county.

Yes, I believe I better take one more question and then I best leave the body.

Question: Do you see any specific career in my future?

Dr. Blair: Well I won't tell you that because then I'm usurping your own free will of choice and that would not be proper. Yes. But you have many abilities in your world, so make your choice.

Now I believe I best take leave of the body. It has indeed been a pleasure to once again to manifest in this manner. And I hope that in some small way here this night that I might have caused each of you to at least consider the importance of not only bringing harmony in your life with you fellow man, but taking it beyond that to the true level of unity.

And as I leave I as only that God pour forth his richest of all blessings upon each and every one of you. May you ever walk in his light and know his love. But most of all may you be filled with his peace. God Bless you one and all.
